TMI LCN CHAPTER:
FOND DU LAC
by Lisa Reber

Linda Heimermann and I, Lisa Reber, were so excited to bring the TMI Local Chapter Network to Fond du Lac, Wisconsin.

Before our first meeting, in January 2013, Linda and I sent blast emails to each of our client lists. We figured this would get a few interested people to join us. The Universe has a way of taking our deepest desires and running with them! Unbeknown to us, someone picked up the info and wrote up not one, but two articles/ announcements in both local papers about TMI Fond du Lac local chapter and the meditation with hemi-sync®.

Linda and I were so amazed and appreciative. We felt this was a good sign for our humble beginning and we are grateful to those responsible.

Our first meeting in January was met with freezing rain/snow! which tested the enthusiasm of those who wished to participate. Still, six consciousness explorers ventured out to experience "The Limitless Self" from Inner States Dawning of Awareness, which was co-developed with Patty Ray Avalon.

The response was great! Everyone enjoyed the guided meditation and free flow time. This encouraged Linda and I in our vision for TMI Fond du Lac!

For our second meeting in February, we decided on "Bridge to Paradise" with Mark Macy.

In our blast invite, we teased the explorers with "this month we will be taking a journey to paradise"! Seventeen consciousness explorers showed up! We were in awe.

Again, the feedback on the meditation was great. Comments about dropping into the heart via the elevator was amazing, the sense of no body was prevalent. We did not have sufficient wireless headphones for all those who attended. Once again, the universe stepped in, and with the donations we've received, we will be able to purchase

about 8 more headphones. Fond du Lac has welcomed TMI local chapter group with open arms and Linda and I are so grateful. I think Bob Monroe would be proud!
